

## Automation Solutions

Maximizing your Return on Assets by simplifying complex install-bases through multi-vendor expertise, world-leading operational technology, and systems integration

For more than 30 years, INTECH's multi-vendor expertise has been enabling major Oil & Gas companies across the globe to maximize return on assets through intelligently designed integrated control automation solutions for their production facilities & plants. Our vendor-agnostic approach to instrumentation and control technology enables clients to use fit-for-purpose systems without compromising on quality, value, and most importantly, inter-operability.

We offer a complete array of automation solutions ranging from basic Process Control & Safety systems to SCADA & Virtualization, as well as turbomachinery control for rotary equipment control, safety, and diagnostics. Our network of global offices, and strategically located manufacturing facilities & automation labs helps us become one of the quickest global turnkey solution providers with global commissioning expertise.

Control, Safety,  
and Monitoring  
for Oil & Gas
